

## Development Galvanized 4 Way Forklift Access Steel Pallet for Workshop Stackable Goods

### Our Product Introduction

for more products please visit us on [warehouse-rackings.com](http://warehouse-rackings.com)

#### Basic Information

#### Product Specification

- Model NO.: QF-Pallet
- Material: Steel
- Structure: Pallet
- Type: Pallet
- Mobility: Combined
- Height: 0-5m
- Weight: 100-3000kg
- Closed: Open
- Development: Conventional
- Serviceability: Common Use
- Color: Customized
- Lead Time: 20 Days
- Surface Treatment: Galvanized/Powder Coating
- Feature: Anti-Wear/Anti-Rust
- Transport Package: Standard Export Packing

## Product Description

### Product Description

**Steel Pallet** is becoming more and more popular all around the world.

Steel pallet is made up of **support feet** and **face board**.

It can be sorted as **two-way access type** and **four-way access type**.

It is mainly used for ground storage, shelf storage, cargo transport and turnover, as container, stacking, handling and transportation of the place as a horizontal platform device unit load of goods and products, and is now an important warehousing and transportation industry auxiliary equipment one.

### The key features and parameters of a roll-out sheet rack include:

|                |                                                                                                                                   |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Size           | 1000x800mm, 1000x1000,<br>1100x1100mm,<br>1200x800mm, 1200x1000mm, 1200x1200mm<br>Customized                                      |
| Height         | 125mm, 150mm or customized                                                                                                        |
| Load Capacity  | 100~3000kg                                                                                                                        |
| Color          | Blue/Orange/Grey/Yellow or customized                                                                                             |
| Forklift Entry | 2-way/4-way                                                                                                                       |
| Application    | Warehouses, factories, industrial units, stockrooms, distribution centre, workplace, workshops, supermarkets, grocery stores, etc |

### DETAILS DISPLAY

### Thickening Material & Edge Bar Reinforcement

### **Back Reinforcement & Strong Foot**

### **High Quality Steel & Operated Easily By Forklift**

### **Customized-Size To Meet All Your Needs**

Pallet Categories

Galvanized & two-way access  
Semi-covering  
1-5cm interval

Galvanized  
Two-way access  
No interval, better capacity

Powder Coating  
Two-way access  
Semi-covering, 1-5cm interval

Powder Coating  
Two-way access  
No interval, better capacity

Powder Coating  
4-way access  
Semi-covering, 1-5cm interval

Powder Coating  
4-way access  
No interval, better capacity

Double-sided galvanized round corner  
pallet

Patterned plate steel pallet  
Increase load-bearing capacity, anti-slip

### Precautions for choosing pallets

Please combine with your actual use when you choose pallet, the main factors are as follows:

- 1, **The size of your warehouse**, to determine the placement of your pallet and the number of required.
- 2, **The size and quantity of the goods** placed on your pallet determines the size of your pallet.
- 3, **The weight of the goods** placed on your pallet, to determine the weight of your pallet.
- 4, **Different ways of use** (your pallet is placed on the ground or need to put on the shelf by using a forklift) to determine the direction of the pallet into the fork, and there will be different load-bearing design.
- 5, **The overall style of your warehouse or your personal preferences**, to determine the color of your pallet.

### If you have any need, don't hesitate, Tell us what you need!

**1, Quantity   2, Color   3, Size   4, Load Capacity   5, Special Requirement**

Our Advantages

1. The panel have half and full two type, can be selected according to demand
2. Edge band to strengthen the protection of the panel and reduce damage
3. Covering the outlet of the tubes on the feet
4. As the pallet foot is the main part to bear the weight, so we use square tube.

**Designed by experienced engineer**  
**Solid and good looking**

## M-shaped reinforced Panels

Stronger  
Longer service life,  
Wear-resistant & durable.

### Tightly connected panel

The panel connects tightly  
with a small gap,  
goods not easy to fall down  
More material  
Better load bearing.

## Welcome to visit our company

### Jiangsu Qifei Intelligent Storage Equipment Co., Ltd

Established in 2020, is one of the leading manufacturer specialized in industrial warehouse storage equipment

Main products are heavy/medium/light duty rack, cantilever rack, mezzanine floor, drive in rack, and so on.

We aim to provide cost-effective and space utilization storage solutions for all customers worldwide

#### WHY CHOOSE US

Customization

Free Design

Best Price

#### Co-operation Process

### Customized Procedure

One-stop Service  
7\*24h on line
