Color	Customized
General Use	Warehouse Shelving/Rack, manufacturing or construction environments etc.
HS CODE	730890
Packaging Details	Plastic banding+Stretch film wrapped

The key features of a vertical roll-out sheet rack:

1. Sheets will be quick overview and selected easily
2. Roll out sliding units can be pulled out 100%.
3. Loading capacity is 200-1500kgs per roll out unit
4. Single people can operate easily ,so save time and labor.

5. 3 degree slant to prevent slipping sheets and protect valuable metal material
6. Save space and make workshop more clean and orderly, also keep worker safe.
7. Vertical rack can be designed "front-back" and "left-right" move style

8. The Vertical Sheet Rack is small and compact, can be placed close to the operating equipment.
9. Each sheet is available quickly, easily, and safely.
10. Each frame section holds up to 15 roll out mounts.
11. Rapid access to sheets makes for reduced operating costs.

Proper selection and installation of a roll-out sheet rack can greatly improve organization, accessibility, and efficiency in sheet material storage and handling.
